

# Quokka (\$QUOK)

## How to buy \$QUOK token using Pancakeswap

### STEP 1:

Download and register for Metamask and Binance apps.

### STEP 2:

Link your bank account or debit card to your Binance account.

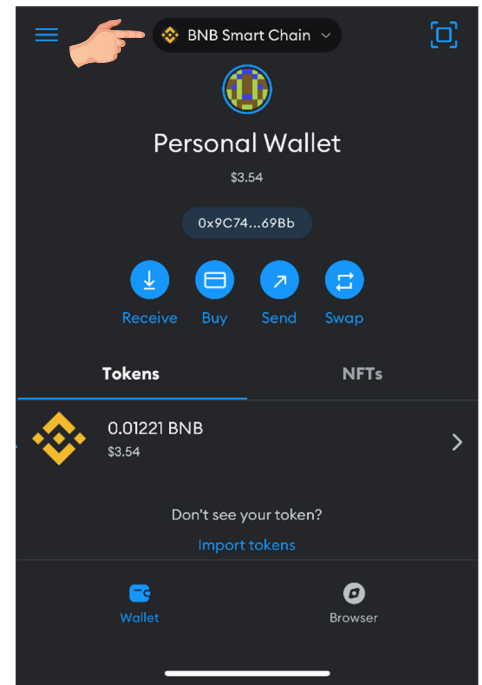

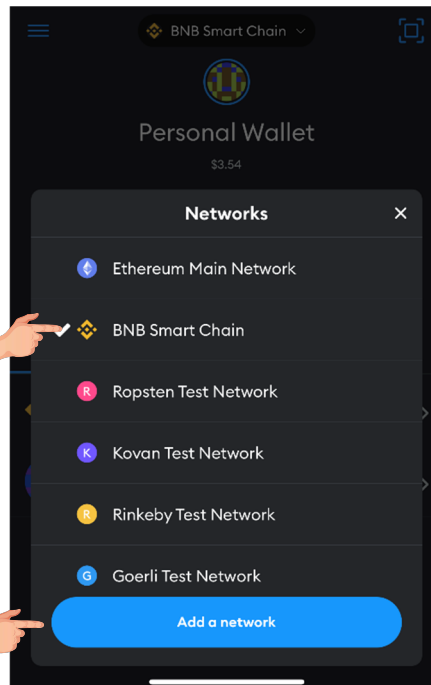

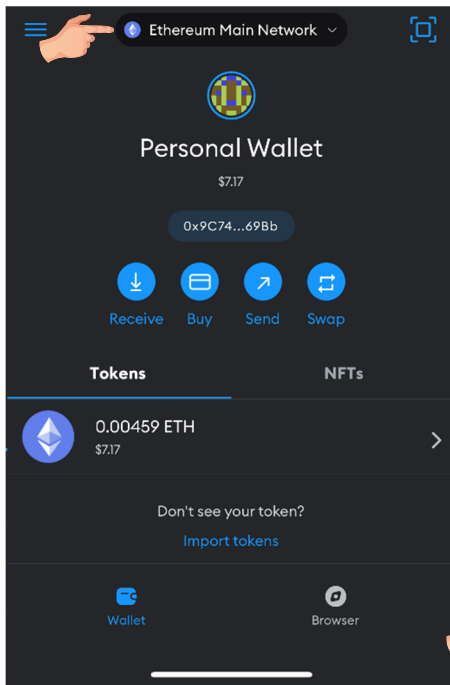

### STEP 3:

Change ETH network to BNB Smart Chain network on MetaMask.

Click on "ETH Main Network"

Click on BNB Smart Chain,  
and click "Add Network"

You are now in BNB Smart Chain  
network as shown.

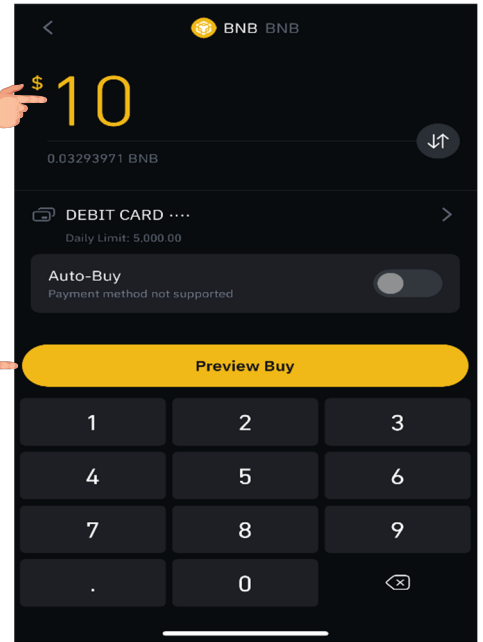

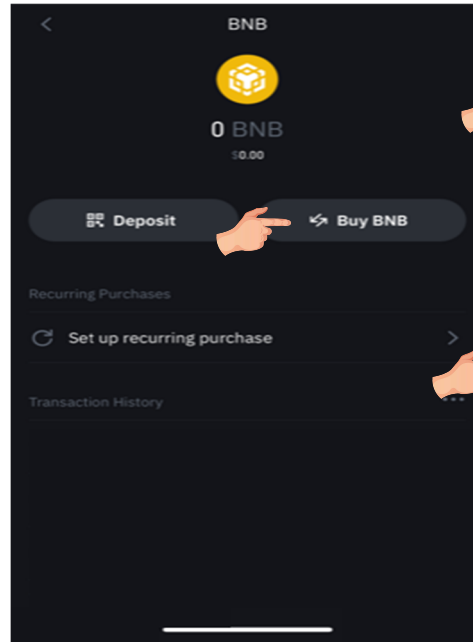

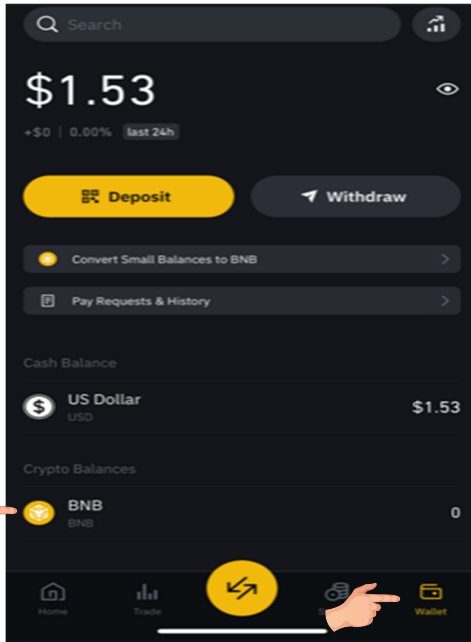

#### STEP 4:

Buy BNB from Binance account and send to your Metamask BNB wallet.

Click on "Wallet" and then "BNB"

Click on "Buy BNB"

Enter Amount and click on "Preview Buy". Then "Confirm Buy"

#### STEP 5:

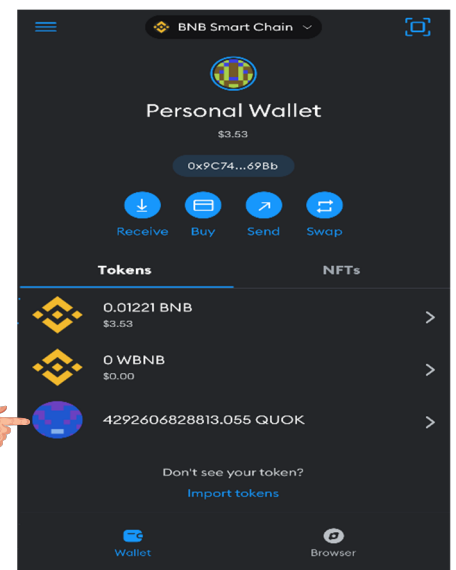

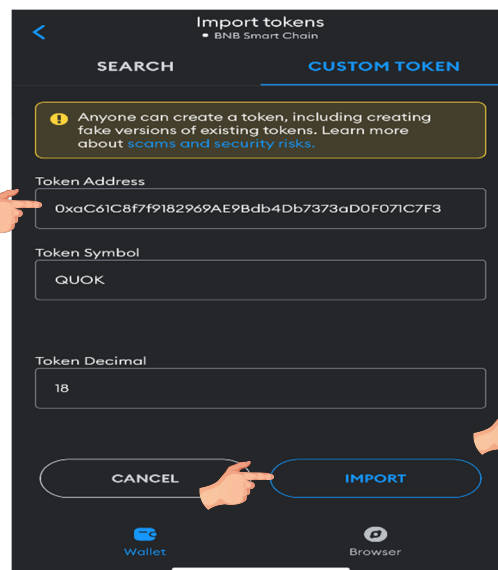

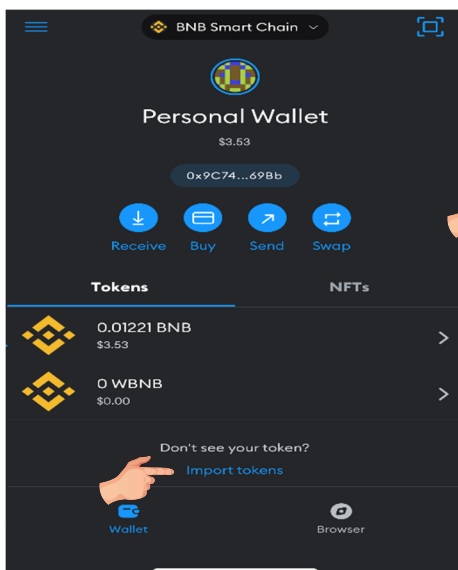

Add Custom Token from MetaMask.

QUOK Contract Address: 0xaC61C8f7f9182969AE9Bdb4Db7373aD0F071C7F3

Click on "Import Token"

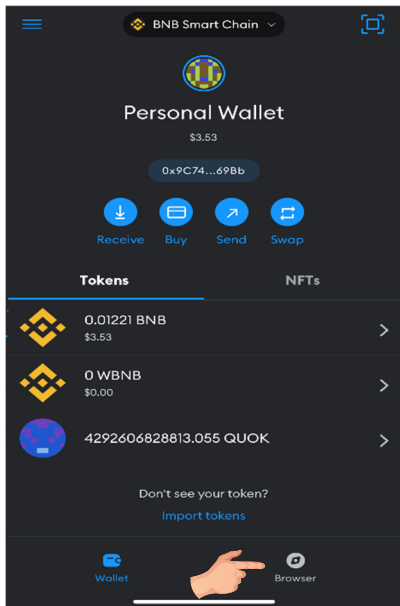

Click on "Custom Token". Copy and paste contract address on "Token Address". And click "IMPORT"

Import token completed as shown.

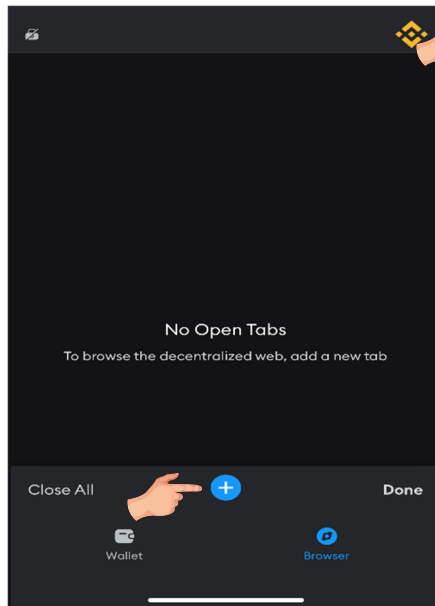

**STEP 6:**  
**Add Pancakeswap on MetaMask.**

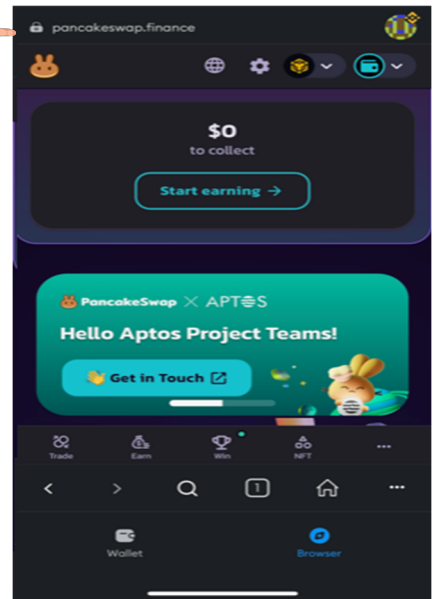

Click on “Browser”.

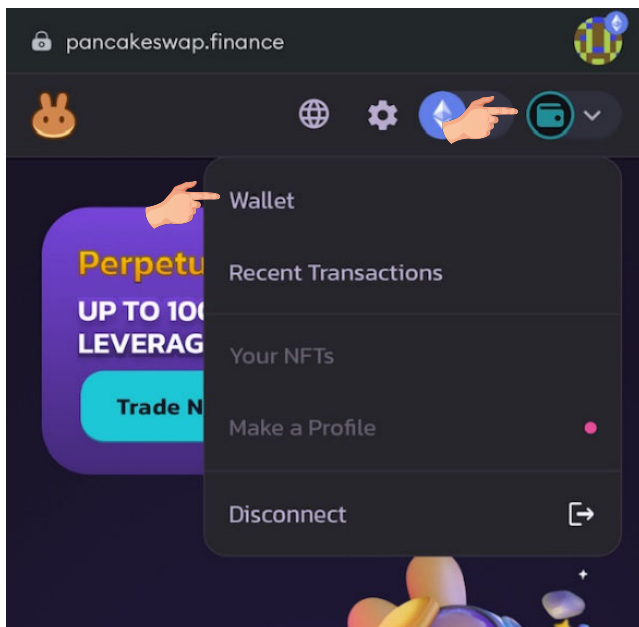

Click on (+) to add new browser tab.

Type “pancakeswap.finance” on the browser.

**STEP 7:**  
**Connect your MetaMask wallet to your pancakeswap if not already connected.**

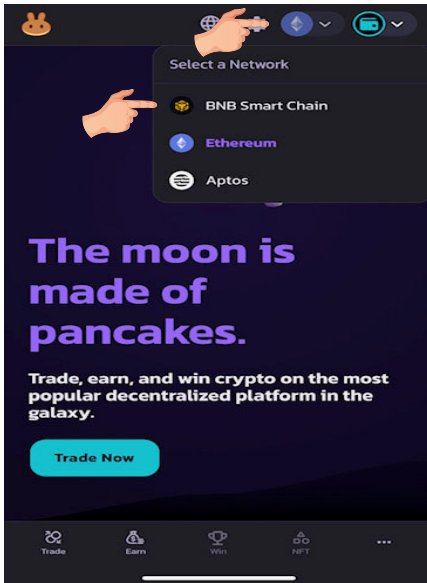

## Step 8:

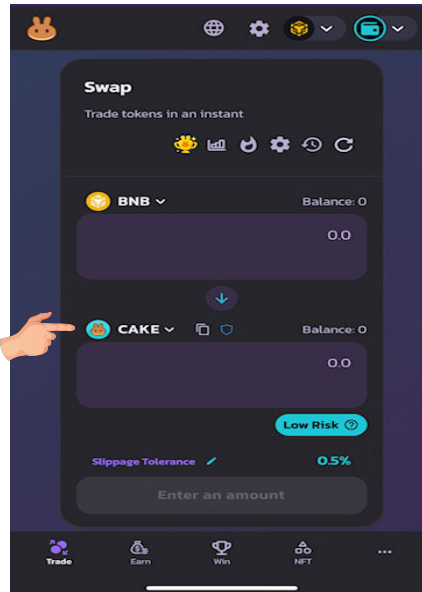

Swap BNB token to QUOK token.

👉 QUOK Contract Address: 0xaC61C8f7f9182969AE9Bdb4Db7373aD0F071C7F3

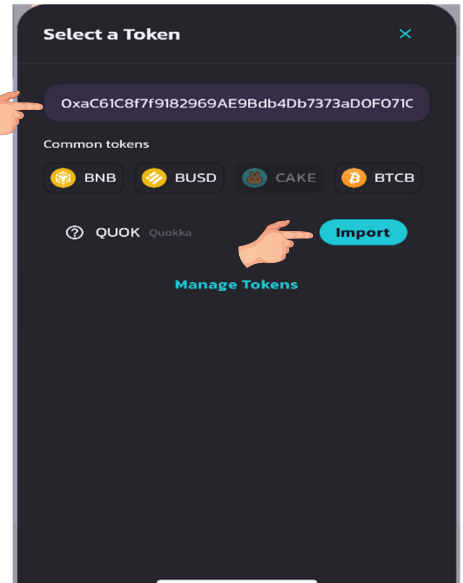

Change ETH network to BNB network, if not connected. Click on "Trade Now"

Click on "CAKE" and change to QUOK token.

Copy and paste QUOK contract address and click "Import" as shown.

## LAST STEP:

Enter desire amount available in BNB to purchase, make sure you have enough BNB for gas fee. Change slippage tolerance to 49%. And click on "SWAP"
